

Project: 16-18 Dalgety St Oakleigh VIC

Re: Construction methodology and certification

Date: 26/02/2020

From: Lincoln Daley

License: DB-U 37064

To whom it may concern;

This letter is to confirm that the above noted project has been constructed from non combustible materials to all perimeter and load bearing walls on all levels.

The construction methodology consists of concrete core filled AFS walls to all perimeter and internal load bearing walls the rendered to achieve the finish seen on site.

Regards,

Lincoln Daley
